

QUALITY POLICY

As a leading small to medium civil construction company TPE is committed to providing our customers with quality, efficient & reliable services.

It is TPE's objective to meet our customers' quality expectations through good management & efficient procedures.

To achieve this objective TPE will:

- Maintain an effective quality management system;
- Implement operating practices which enable employees to carry out their responsibilities consistently and efficiently;
- Regularly review operating practices to improve the quality and consistency of our products and services;
- Ensure employees have the necessary competence to perform the work which affects product quality;
- Hold all levels of management accountable for quality in their area of responsibility; and
- Monitor the effectiveness of the quality management system against measureable objectives to facilitate continuous improvement.

Each employee of TPE has a responsibility to ensure that this objective is achieved.
